

WINDOVER FARMS OF MELBOURNE

Homeowners Association, Inc.

Date _____

Property Owner _____

Address _____

Lot # _____

To the Architectural Review Committee:

We are planning to install a (type) _____ antenna, and the site of the location is to be (showing exact location on site plan).

This installation *will* _____ *will not* _____ violate any *architectural restrictions.

If the answer is *will violate*, please furnish an explanation of why the antenna must be installed in the area/manner.

Please describe the method and manner of antenna installation.

For routine installations that do not violate association rules, this notification process will not delay installation. For *non-routine* installation, please inform us of the reasons and we will arrange an acceptable timetable for site inspection and schedule a meeting to discuss possible installations in a manner that will conform to the ARC guidelines.

*Satellite dishes are permitted, provided they are shielded from view of the roads and surrounding neighbors. Ground mounted dishes to be landscaped to be hidden from right of way and neighbors. Wall or roof mounted must not be seen from the roadway. Certain dishes may need to be painted to match house or roof color.

*Wireless Cable installation must adhere to the agreement between WBS and Windover Farms or Melbourne, Homeowners association. For the specifics of this agreement contact the association office. (A copy will be furnished upon request)
